## BAG SEALING SOLUTIONS

## MPS 6100

### Series Continuous Band Sealer

The MPS 6000 series of sealers offer you the highest quality and utmost reliability of any machine on the market at the most effective price. Key design features include; a unique Teflon band tensioner, tool-less access to the seal section, removable sealing sections, the ability to easily add options to the machine in the field, customizable stands, and much more.

The MPS 6100 models are stand alone bag sealers capable of sealing bags up to 2 pounds in weight (on an 8" wide bag, 2 mil bag) without the use of a conveyor. These sealers can seal bags up to 6 mil in thickness at production rates.

Designed for 24/7 operation, these sealers are suitable for all production environments.

### TECHNICAL SPECIFICATIONS
