

# HDX 250A

## AUTOMATIC LBAR & HEAT SHRINK TUNNEL COMBO SYSTEM

**UP TO 35 PACKS  
A MINUTE!**

### COMPACT WRAPPING POWER

The HDX-250A Combo Shrink Wrapper is a high-speed, space-saving packaging solution that combines an automatic L-Bar Sealer with a built-in shrink tunnel—offering a compact, all-in-one system for consistent, high-quality results. Its intuitive touchscreen interface allows for quick setup and programmable settings, making operation easy and repeatable. Designed for efficiency, the HDX-250A is ideal for high-output environments and helps reduce floor space usage and equipment costs, coming in at up to 40% less than buying separate machines.
